

DVR-One External Disk

USB connected DVR external hard drive for puck-format VIP set-tops

FEATURES

- Enables DVR/PVR services on VIP puck-format set-tops
- Connects via USB for both power and data
- Clips on to the bottom of the set-top
- Consumer installable

PRODUCT OVERVIEW

The DVR-One hard drive accessory is a companion device to ARRIS puck-format set-tops, including the VIP4302, VIP4205 and VIP5305, to provide storage for DVR/PVR services.

It connects to the USB port of the set-top for both data connectivity and power. It securely clips on the underside of the set-top and is suitable for installation by end-consumers enabling it to be offered as an upgrade to existing customers.

DVR-One (lower unit) with VIP5305 (upper unit)
